FAQ's

Does GCCC/Boldyn provide complimentary Wi-Fi?

Yes! Boldyn provides complimentary Wi-Fi in most designated public areas of the facility, such as the concourse lobbies and food courts. Check with your specific venue for locations. This service is made available to the 1.6 million people who visit the convention center every year. There is no requirement to purchase a Boldyn service in order to take advantage of the complimentary Wi-Fi.

Why is there no complimentary Wi-Fi in the exhibit halls?

Exhibit halls are not public areas since this space is typically licensed to a company, government agency, or trade association for a private event. The space license agreement governs the availability of a range of services for the event and the license may or may not call for complimentary Wi-Fi services.

Do you offer advanced pricing?

Orders received along with payment by the early-bird deadline date will receive our early incentive pricing.

Will my personal hotspot (Mi-Fi) work in your building?

Yes. However, the capability of your personal mobile hotspot is limited by your carrier's spectrum and internet bandwidth. Cellular carrier signals penetrate into a facility either from a nearby cellular tower or via an in-building Distributed Antenna System (DAS). This signal comes from a shared cellular network, so service may be disrupted or become unreliable due to user density and demand on the carrier's network.

In all cases, you have the option to take advantage of the complimentary Wi-Fi throughout the public areas, or you can purchase an upgraded package based on your service requirements.

How much bandwidth do I need?

To identify how much bandwidth you require, please reach out to a technical representative in your organization and review your program specifications listed with any demonstrations or downloads you plan to run.

What must be identified on my floor plans?

Floor plans should include measurements, the surrounding booth numbers for orientation, and easy identification of all required end location(s). Be sure to distinguish your main distribution line (MDL) and additional patch cables.

If no location or floor plan is provided, the drop will be installed within that space, to the most convenient location for our technicians. Relocation fees will apply if the line(s) needs to be moved.

A relocation fee will apply to any line(s) that need to be relocated after installed; 1 hour labor per line relocation.

TIP: Most of our venue's data jacks originate from a floor pocket. Be sure to submit a completed floor plan prior to the first day show move-in to avoid any additional labor charges.

Why are routers not allowed on a shared network?

Incorrectly installed routers on a shared network can cause problems for other users of the network. Additionally, an accurate count of the number of devices on the network is required to determine the appropriate network size and bandwidth available to the network. For more information and to request the build-out of a special system to meet your needs, contact our team today for a quote.

Can I provide my own switch and patch cabling?

Yes, you can bring your own switch. Please bring the item with you, as we do not handle any shipping. All under carpet/pre-installed cables must be purchased through Boldyn. Exhibitors may bring their own cables. However, additional fees/labor may be applied for replacement and/or troubleshooting.

Please note: Connectivity can be guaranteed only to the point where Boldyn's services originate in the booth. Boldyn cannot guarantee service on cable(s) and/or equipment provided by the customer or exhibitor. Any request for trouble diagnosis or problem resolution found not to be the fault of Boldyn (such as faulty equipment or damaged cable) may be billed to the exhibitor at the prevailing labor rate.
